# KMUTT VPN Setup Instructions for
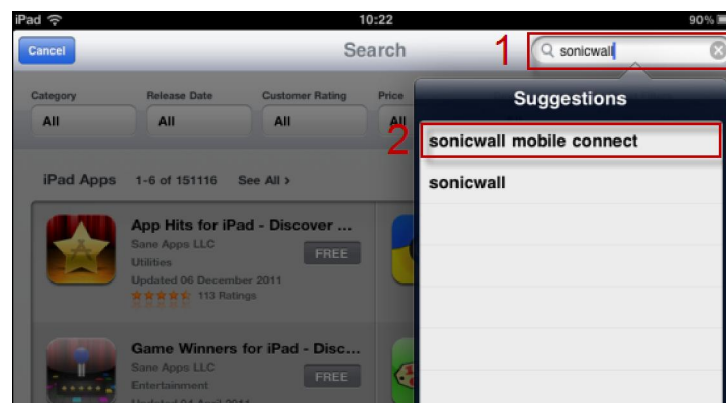

iOS (iPad and iPhone)

* SonicWALL Mobile Connect requires **iOS 4.2 version or higher**

How to set up KMUTT Aventail VPN

1. Download the 'VPN Client' from the App Store

2. In the search box, type in 'Sonicwall', then select 'sonicwall mobile connect'

3. Download and install 'SonicWALL Mobile Connect'

4. Tap the '**SonicWall**' icon to open the application

5. Select '**Add connection**' to connect to '**KMUTT VPN**'

6. When the pop-up window appears, enter following details:
   Name: KMUTT
   Server: tunnel.kmutt.ac.th

7. Select '**Continue**'

8. Select '**Connect**' to connect to 'KMUTT VPN'

9. When this pop-up dialogue box appears, select '**Continue**'

10. Select '**KMUTT Account**', then click '**Next**'

11. Type in the username and password provided by the university, then click 'Login'
    Username: XXXX.XXX
    Password: *******

12. Select 'Continue'

13. When the connection is established 'Status: Connected' and a VPN icon will appear on the top-left of your screen

14. When you look at the monitor, you will see the following details.

15. To disconnect, click on '**Disconnect**'

If you have problems with your username and password, you can change your password at http://webmailst.st.kmutt.ac.th/student/resetpwd/changepasswdTH.php
