

OPEN VPN Setup Instructions

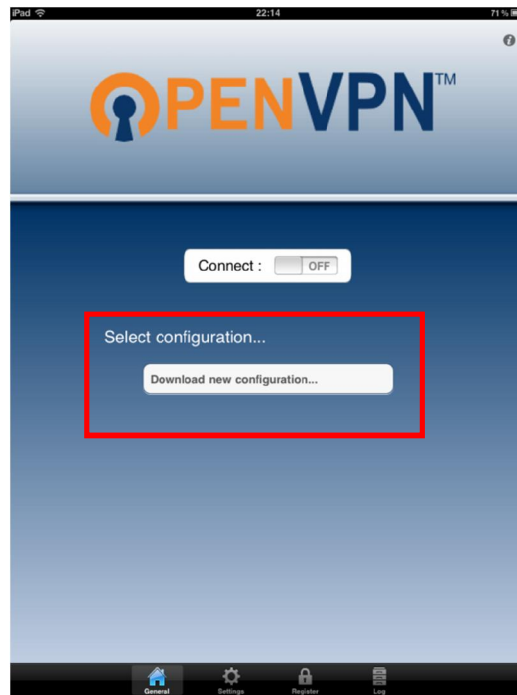

Using GuizmOVPN **For iPad**

How to set up Open VPN using GuizmOVPN for iPad

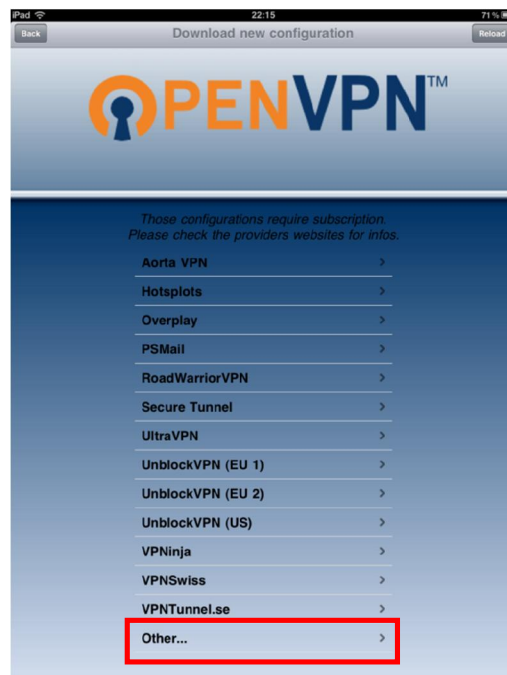

1. Download and install '**GuizmOVPN**' from <http://www.guizmovpn.com/>
2. Tap the '**GuizmOVPN**' icon to start the program

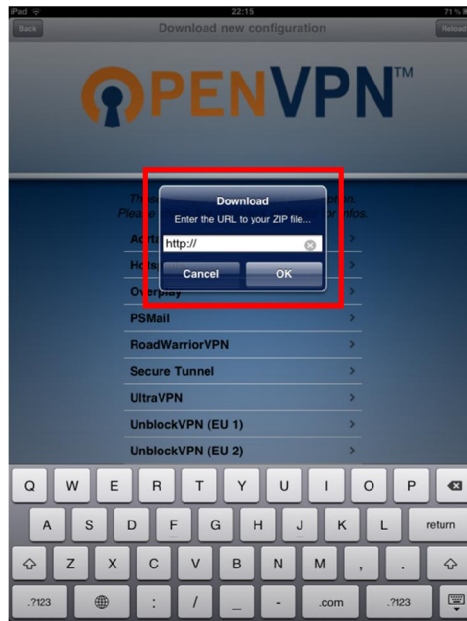

3. For first time users, select **'Download new configuration...'**

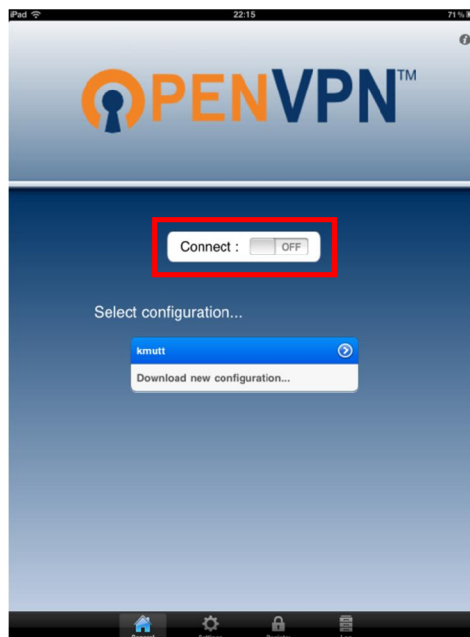

4. On the pop-up page, select 'Configurations', and select the **'Other...'** tab

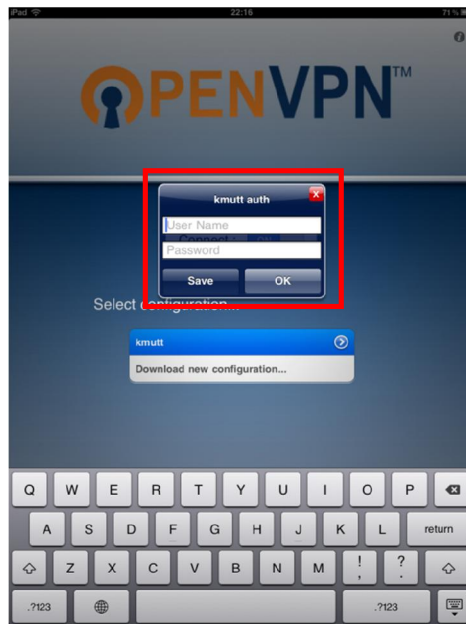

- When you see the window to enter the URL to download the file, enter [‘http://www.cc.kmutt.ac.th/xxx’](http://www.cc.kmutt.ac.th/xxx)

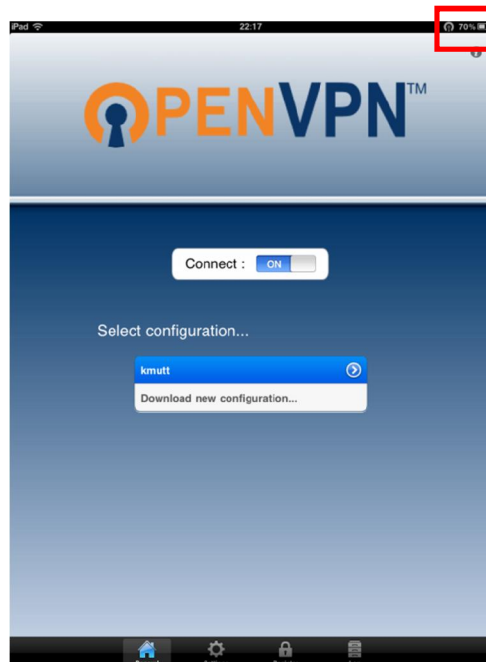

- After the installation is complete, the **‘kmutt’** profile will appear.
To connect to the VPN, click **‘Connect’**

7. Enter your username and password, then click 'OK'

8. When you are connected, the program icon will appear.
